## Update Data via Excel Spreadsheet

Either through web API or data input on Excel spreadsheet, Magic Mirror Manager™ will translate it into meaningful content display to the assigned Magic Mirror™ unit(s).

## Schedule Ads for Different Campaigns

Pre-plan your advertisements through Magic Mirror Manager™. It gives managers the ability to schedule and run campaigns on the pre-defined time, optimizing the use of Magic Mirror in different store branches.

# Manage 100+ Units From A Central Location

Centrally Managed by HQ

## Proven To Improve Staff Morale

Bear in mind that shoppers are not as pro-active to purchase an item. With the pre-set guidelines, staffs are able to use different tools available to seep into shopper's journey. e.g. take a selfie, watch a tutorial video, look at colour options online.

## Consistent Sales Experience Across All Branches

Since sales content can be updated centrally, regional managers can also take part in the sales process by providing updated guides of product stories for staffs to share.
